A strobogrammatic number is a number that looks the same when rotated 180 degrees (looked at upside down).

Write a function to determine if a number is strobogrammatic. The number is represented as a string.

## Example 1:

Input: "69"  
Output: true

## Example 2:

Input: "88"  
Output: true

## Example 3:

Input: "962"  
Output: false
