[< Back](#) | Easy to understand solution, beat 99.5%, no need for window function, just a simple union    tianqi2019 ★ 23 Last Edit: August 27, 2019 5:58 AM 1.9K VIEWS

```
21 select distinct product_id, 10 as price
   from Products
  group by product_id
 having (min(change_date) > "2019-08-16")

union

select p2.product_id, new_price
from Products p2
where (p2.product_id, p2.change_date) in

(
select product_id, max(change_date) as recent_date
from Products
where change_date <= "2019-08-16"
group by product_id
)
```
