```

SELECT      p.project_id,
            ROUND(AVG(e.experience_years), 2) AS average_years
FROM        Project AS p
INNER JOIN  Employee AS e
ON          p.employee_id = e.employee_id
GROUP BY    p.project_id
    
```
