Write your MySQL query statement below

```
SELECT project_id
FROM project
GROUP BY project_id
HAVING COUNT(employee_id) =
(
    SELECT count(employee_id)
    FROM project
    GROUP BY project_id
    ORDER BY count(employee_id) desc
    LIMIT 1
)
```

similar approach:

```
select project_id
from Project
group by project_id
having count(employee_id) = (
```
